

RESOLUTION NO. 1831

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FIFE, PIERCE COUNTY, WASHINGTON AUTHORIZING THE CITY MANAGER TO PURCHASE AN EBARA K SERIES SEWER PUMP FROM GRANICH ENGINEERING PRODUCTS, INC.

WHEREAS, Sewer Pump Station 12 (PS-12) is located on Radiance Boulevard East just east of 54th Ave E. The station was constructed in 2002 and has three submersible type pumps. The station receives sewer flows from every sewer connection south of the UPRR. This sewer basin includes the Radiance, Saddle Creek plats and warehouses that are accessed from 70th Ave E; and

WHEREAS, the station has a history of pumps clogging that causes the pump to fail. This requires the clogged pump to be lifted to the surface by public works maintenance staff with a boom truck and cleaned to clear the obstruction; and

WHEREAS, the City's consultant Parametrix reviewed types of sewage pumps that are available now with better impeller shapes than the pumps originally installed at PS-12, and concluded that the Ebara K Series type pump would be the best to service the City's needs; and

WHEREAS, Parametrix has obtained a quote of \$18,463 (\$16,800 plus 9.9% sales tax) for this pump from Granich Engineered Products, Inc., who is the sole supplier of this pump in this region. If a specification were written and the item was advertised for bids, Granich would be the only bidder; now therefore

BE IT RESOLVED that the City Council hereby (1) waives competitive bidding requirements as provided for in RCW 39.04.280 as the purchase is clearly and legitimately limited to a single source of supply, and (2) authorizes the City Manager to purchase from Granich Engineered Products, Inc. one Ebara model 150DLKFMU618.4 for \$16,800 plus tax.

ADOPTED by the City Council at an open public meeting held on the 8th day of May, 2018.

Kim Roscoe, Mayor

Attest:

Angela Woods, City Clerk
