

## ADDENDUM NUMBER 2

City of Fife  
Project #113: 66<sup>th</sup> Avenue Improvements

### TO ALL PLANHOLDERS

You are hereby notified of the following changes, deletions, additions and corrections to the Special Provisions, Plans, Standard Specifications and other documents comprising the contract documents for the City of Fife's 66<sup>th</sup> Avenue Improvements (Project #113).

*PROPOSAL* (See revised proposal sheet)

#### Bid Schedule C

Item C-25, HMA, REVISE Qty to equal 1,700 TON

Add Item C-31, Corrugated Polyethylene Storm Sewer Pipe 8 In. Diam, Qty =109 LF

Add Item C-32, Corrugated Polyethylene Storm Sewer Pipe 12 In. Diam, Qty =29 LF

Add Item C-33, Corrugated Polyethylene Storm Sewer Pipe 24 In. Diam, Qty =659 LF

Add Item C-34, Catch Basin Type 1, Qty =1 EA

Add Item C-35, Manhole 48 In. Diam. Type 3, Qty =8 EA

Add Item C-36, Illumination System, Qty =1 LS

#### *SPECIFICATIONS*

#### Bid Schedule C

Technical Specifications, 7.61.13 Standing Seam Sheet Metal Roofing, Part 2 – Products, Materials

Revise the first sentence as follows:

HMA used for road paving and patching shall comply with Section 5-04 of the Standard Specifications for HMA Class ½-inch. HMA used for driveways and parking lots shall be HMA Class ½-inch. Furnish, place, spread, and compact ACP to the thickness shown on the Plans.

Technical Specifications, Division 18, Measurement and Payment

Bid Item 2 – Site Work, is revised as follows:

Lump sum price shown shall cover the complete cost of providing all site work relating to construction of improvements as shown on the Plans and specified herein. Work includes, but is not limited to: structure excavation, backfill, and compaction; site grading ~~and gravel surfacing~~; temporary construction fencing; disposal of excess material; removal of unsuitable materials; removal of existing curbs, asphalt, concrete, and vegetation; backfill; appurtenances; and all other

work necessary for a complete installation of all site work. Payment shall be lump sum.

Bid Item 3 – Temporary Erosion and Sedimentation Control, is revised as follows:

Lump sum price shown shall cover the complete cost of providing all temporary erosion and sedimentation control relating to construction of improvements as shown on the Plans and specified herein. Work includes, but is not limited to: silt fence, silt socks, temporary trenching, temporary mulching, temporary plastic sheeting, construction sedimentation control ponds and/or tanks; control of water; dewatering and restoration of damage caused by storm events, and all other work necessary, for a complete installation of all temporary sedimentation and erosion control facilities. Payment shall be lump sum.

~~Price includes excavation, haul and disposal of excavated material, and replacement with import compacted to design specifications. Measurement shall be per ton of imported material. Payment shall be made only after prior approval by the Owner from written direction in the field.~~

Bid Item 20 – Modifications to Existing Stormwater System, is revised as follows:

Lump sum price shown shall cover the complete cost of providing all materials, equipment and labor necessary for modifications to the existing stormwater system pertaining to the pump station work. Work includes: orifice structure modifications; restoration; testing and all other work for a complete installation. Payment shall be lump sum.

Bid Item 31 – Corrugated Polyethylene Storm Sewer Pipe 8 In. Diam., is added:

Unit price shall cover the complete cost of providing all materials, equipment and labor necessary for constructing Corrugated Polyethylene Storm Sewer Pipe 8 In. Diam. Work includes: pipe; trenching; bedding; backfill; compaction; restoration; temporary surface patching and restoration; connections; testing and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 7-04 and 7-08. Payment shall be per lineal foot.

Bid Item 32 – Corrugated Polyethylene Storm Sewer Pipe 12 In. Diam., is added:

Unit price shall cover the complete cost of providing all materials, equipment and labor necessary for constructing Corrugated Polyethylene Storm Sewer Pipe 12 In. Diam. Work includes: pipe; trenching; bedding; backfill; compaction; restoration; temporary surface patching and restoration; connections; testing and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 7-04 and 7-08. Payment shall be per lineal foot.

Bid Item 33 – Corrugated Polyethylene Storm Sewer Pipe 24 In. Diam., is added:

Unit price shall cover the complete cost of providing all materials, equipment and labor necessary for constructing Corrugated Polyethylene Storm Sewer Pipe 24 In. Diam. Work includes: pipe; trenching; bedding; backfill; compaction; restoration; temporary surface patching and restoration; connections; testing and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 7-04 and 7-08. Payment shall be per lineal foot.

Bid Item 34 – Catch Basin Type 1, is added:

Unit price shall cover the complete cost of providing all materials, equipment and labor necessary for constructing Catch Basin Type 1. Work includes: excavation; bedding; backfill; compaction; restoration; temporary surface patching and restoration and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 7-05. Payment shall be per each.

Bid Item 35 – Manhole 48 In. Diam. Type 3, is added:

Unit price shall cover the complete cost of providing all materials, equipment and labor necessary for constructing Manhole 48 In. Diam. Type 3. Work includes: excavation; bedding; backfill; compaction; restoration; temporary surface patching and restoration and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 7-05. Payment shall be per each.

Bid Item 36 – Illumination System, is added:

Lump sum price shall cover the complete cost of providing all materials, equipment and labor necessary for the modifications to the existing illumination system. Work includes: conduit; junction boxes; conductors; splicing; trenching; bedding; backfill; compaction; restoration; temporary surface patching and restoration; new foundations; relocation of luminaires; testing and all other work for a complete installation. Work shall be completed in accordance with WSDOT Standard Specification Section 8-20. Payment shall be lump sum.
