BID PACKAGE

INVITATION TO BID

Notice is hereby given that sealed bids will be received by the City of Fife at Fife City Hall; 5411 23rd Street E., Fife, WA 98424 up to the hour of **104:00 ap.m. on May 165, 2018** for the **Underground Electrical Services – SR99 Pedestrian & Stormwater Improvement Project #112**. Project documents are available on Fife's website at: <http://cityoffife.org/online-guide/businesses/economic-development/requests-for-proposals> Bids received later than **104:00 ap.m. on May 165, 2018** shall not be considered.

Improvements to be included within **Underground Electrical Services - SR99 Pedestrian & Stormwater Improvement Project #112** are as follows:

Phase 1: The City of Fife has contracted with Johansen Construction Company for the SR99 Pedestrian and Stormwater Improvement Project. In general, the work consists of the addition of a new Left-turn lane at SR 99 and 54th Ave East, replacement of traffic signal, new illumination system, new curb, sidewalk, pedestrian bridge, irrigation, landscaping, stormwater collection and treatment systems, bioretention planters, water system improvements, and undergrounding overhead franchise utilities. The approximate project limits are from 54th Avenue East to East City limits on the north side of SR 99 channelization. All Phase 1 work is excluded from this contract. The SR 99 Pedestrian and Stormwater Improvement Projects Plans are available on Washington Builders Exchange and Fife's Website as Reference only.

Phase 2: Upon completion of the undergrounding of overhead franchise utilities as part of Phase 1 described above, this contract covers the connection of 6 buildings to new underground power distribution system from Tacoma Public Utility (TPU) and underground communication connections. This work includes but is not limited to the following:

Install power and communications conduit and wire from new SSB supplied by others to buildings on the north side of SR99. These include the following addresses: 5511, 6119, 6307, 6323, 6411 and 6423 Pacific Highway E. Provide trenching and backfill, restore existing surfaces to engineer's satisfaction with like material (gravel, concrete, asphalt, etc.), restore plants and grass as needed, install 6 underground meter sockets, reconnect to existing services. Directional boring or other techniques for installation of conduits that minimize disturbance and minimize restoration is an acceptable alternative to excavation.

All work shall be in accordance with the latest electrical codes and franchise utility requirements. Contractor shall be responsible for all required permits and fees, including any permits required by the electrical utilities.

This contract will be paid using local funds. Pierce County Prevailing wage requirements are in effect.

Phone inquiries regarding the project may be directed to Bryon Agan, P.E., Acting Assistant Public Works Director, at (253) 896-8203.
