**PROJECT LOCATION INFORMATION**

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**  
**Agency: City of Milton**

(Roadway projects without a federal route number or a federal functional class may be ineligible for federal funds.)

3. **Project Location:** Milton Way

From: Juniper Street To: 23<sup>rd</sup> Avenue

Or, other appropriate locating information: \_\_\_\_\_

**Project Length:** 1300 (feet)

4. **Federal Route Number** 3288

5. **Federal Functional Class:** Minor Arterial see link [www.wsdot.wa.gov/Mapsdata/tools/functionalclass](http://www.wsdot.wa.gov/Mapsdata/tools/functionalclass)

5a. **Posted Speed Limit:** 35 mph

5b. **Average Daily Traffic Volume:** 10,400 vehicles per day

**PROJECT DESCRIPTION**

6. **Funding Request: What is the proposed funding source?** STP \_\_\_\_\_ CMAQ X

7. **Is this project included in a locally adopted plan or program?**  
(This is a threshold requirement to compete in this funding process. Projects not shown in the applicants adopted local TIP or Transportation Element of its Comprehensive Plan are not eligible. Please provide a copy of the necessary documentation).

Yes X No \_\_\_\_\_

If yes, cite document, page(s) and adoption date: City of Milton Current Six-Year Transportation Improvement Plan, Section 3, item 3.2, page 8 of 18, adopted June 17, 2013. \*copy of page 8 of 18 and resolution adopting the 6-yr TIP attached\*

8. **Brief Project Description - Include a 8 1/2 x 11 detailed vicinity map and a cross-section detail of the project, if applicable (100 words maximum):**

This project provides approximately 1,300 linear feet of roadway widening to accommodate bicycle lanes cement concrete curb, gutter, and sidewalk with a planter strip and ADA compliant ramps, associated storm drainage improvements, and undergrounding of existing overhead utilities along the north side of Milton Way from Juniper Street to 23<sup>rd</sup> Avenue, closing a gap in the existing sidewalk system. \*vicinity map and cross section detail attached\*

Confirm word count ( 59 words).

9. **Purpose and Need – Please provide a clear and concise narrative describing the project’s existing and proposed conditions. If available, provide pictures, technical data and/or other supporting studies or analysis (400 words maximum):**

There is currently a gap in the existing sidewalk system along the north side of Milton Way between Juniper Street and 23<sup>rd</sup> Avenue. The existing narrow shoulder has sections of uneven surfacing and locations containing loose gravel from adjacent driveways. The shoulder is less than two feet wide at certain locations and does not have adequate width to accommodate persons in wheelchairs or on bicycles. There is also an existing drop off on the back side of the narrow shoulder at select locations. Without a pedestrian railing, there is a fall danger for pedestrians trying to utilize roadway shoulder. Storm drainage is an issue in this area as well; sections of the narrow shoulder have ponding problems due to the lack of adequate storm conveyance. This creates a hazard on the narrow shoulder and forces pedestrians into travel lanes to avoid the standing

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**

**Agency: City of Milton**

water.

The project proposes to construct approximately 1,300 linear feet of roadway widening including curb, gutter and 5-foot wide sidewalks with planter strip and ADA compliant ramps along this portion of Milton Way. This project will complete the gap in the current sidewalk system, and allow unrestricted pedestrian travel throughout the corridor. In areas where there is a steep slope behind the sidewalk, walls will be installed with a fence or pedestrian railing. Existing overhead utilities will be relocated underground to match the streetscape to the east. Drainage improvements will also be made to meet current stormwater conveyance, detention and treatment that may be triggered by this project.

The potential increased pedestrian, bicycle, and transit activity supports the Milton East Activity Node and three schools directly to the south of the project, and has the potential of decreasing the amount of vehicular traffic along this route.

Confirm Word count ( 290 words)

**PROJECT TRACKING AND FUNDING**

NOTE: Sponsors may request funding for any single phase of the project, but requests for multiple phases is limited to preliminary engineering plus the subsequent phase necessary. For instance, requests for multiple phases are limited to the combination of (1) preliminary engineering and right-of-way or (2) preliminary engineering and construction (no right-of-way and construction requests will be considered).

*Required Match:* A minimum of 13.5% of local matching funds is required for PSRC's FHWA funding. The following formula may be used to calculate the projects match:

To calculate the amount of matching funds, divide the federal funds requested by .865 and subtract the federal funds from this amount.

Example: Federal funds requested = \$100,000

$$\$100,000 / .865 = \$115,607$$

$$\$115,607 - \$100,000 = \$15,607 \text{ local match required}$$

Please note: The combination of the requested PSRC funds plus all other funding must be adequate to fully fund that phase. Requests that do not result in a phase being fully funded cannot be approved into the regional TIP and therefore will be considered ineligible for PSRC funding.

**10. Grant Funds Requested**

<b>Phase (e.g., Planning Study/Project,, Preliminary Engineering, Right of Way, Construction, Other)</b>	<b>Estimated Obligation Date (year only)</b>	<b>Federal Funds Requested</b>
Construction	2015	\$ 622,714
		\$
		\$
		\$
		\$ 622,714

**IMPORTANT:** Please select 2015, 2016 or 2017 for estimated obligation year. Per PSRC's adopted project tracking policies, the deadline for obligating funds is June 1 of the selected

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**

**Agency: City of Milton**

obligation year. For more information, see:  
<http://www.psrc.org/transportation/tip/tracking>

**11. Total Project Cost (\$719,900)**

Guidance: To be programmed into the state Transportation Improvement Program, funds for the phase being requested must be secure or reasonably expected to be secure. Unsecured funds will not be considered. Please use the website following link to assist in completing the following table:  
[www.psrc.org/assets/7911/Definitions\\_SecuredandUnsecuredFunding.pdf](http://www.psrc.org/assets/7911/Definitions_SecuredandUnsecuredFunding.pdf)

A	B	C	D	Project Phase			
				E	F	G	H

If unable to completely fill out Tables #10-12, please explain why: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**11a.** Provide additional information on any funds identified in the table above as reasonably expected to be secure. For example, identify the estimated approval date of funds for the project into the 6-year program; if pursuing a limited improvement district, bonding, or other local funding mechanism, when will that occur and what additional steps are required, etc. For more information on the definition of secured, reasonably expected, and unsecured funds, refer to:  
<http://www.psrc.org/assets/11214/FinancialConstraintGuidance.pdf>

Funds have already been allocated and secured for this project in the adopted 2014 budget, just not the exact amount shown in this grant application. A change in the total amount, reflecting current costs and grant funding, is a simple budget adjustment that Council can approve at any time. If grant funding is awarded, a budget adjustment will be immediately taken to Council to adjust the project costs. \*adopted 2014 budget page attached\*

**THE FOLLOWING RESPONSES WILL BE SCORED FOR PROJECT PRIORITIZATION.**

**PROJECT READINESS**

12. Cooperating Jurisdictions and Private Sector Support, if any: Provide names of all jurisdictions and private parties, contributing funds would be applied, and the percentage of total project funds provided. The percentage shall be expressed based on the costs of the requested phases under the current application. Contributing funds for prior phases shall not be considered. Applicants that have been previously awarded grant funding for their project CANNOT use the grantor as a cooperating jurisdiction.

Letters of Commitment from all cooperating jurisdictions and private sector support must be attached to receive points: Yes  No

Cooperating Jurisdiction	Phase	Dollar Amount of Participation	Percentage of Current Application
NA			
<b>Total:</b>			

- \_\_\_\_\_ 5 % or more      3 points
- \_\_\_\_\_ 3 to 4 %      2 points
- \_\_\_\_\_ 1 or 2 %      1 point

**COMMITTEE SCORE** \_\_\_\_\_

 (Max. score of 3)

**Project Title:** Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue  
**Agency:** City of Milton

17. Is the project or phase ready for implementation? (One point per box. Please check all that apply)

Obligate funds in 2015 (receives 2 points) *	X	Environmental process complete* (must provide a signed ECS by FHWA or WSDOT H&LP)	
Obligates funds in 2016 (receives 1 point)		Funding requested here completes project or fully implements the project	X
ROW plans approved by WSDOT		Purchase of ROW certified or <u>not required</u>	X

\*Note: NEPA will NOT be finalized until the “next” project phase is funded in the STIP.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 6)

Please provide information on your project readiness to proceed: design underway, anticipated complete by end of August, 2014.

**Design Status (% complete):** 30%

Project Phase	Status	Actual or Expected Completion Date
Preliminary Engineering	Not complete	8/31/2014
Environmental Approval	Not complete	12/31/2014
Right-of-Way Certification	N/A	Click here to enter a date.

If construction funds are being requested, please describe any ROW needs for the project, including the number of parcels needed, whether property owners are expected to cooperate (and your agency’s experience with condemnation and/or whether it is willing to go to condemnation if needed).

This project is being designed entirely within the current existing ROW – no additional ROW is needed.

17a. Will other secured or reasonably secured funding benefits be missed if the project remains unfunded in 2015, 2016 or 2017?

Yes \_\_\_\_\_ No X (Include information about other funding benefits.)

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 1)

18. Pierce County Regional Growth Centers Hierarchy and Connecting Corridors criteria: Is the project located in (1-3) or serving (4-6) any of the following? (Please check all that apply).

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**

**Agency: City of Milton**

1. Metropolitan Center (scores 1 point)		4. Corridor Supporting one (1) or more Regional Manufacturing/Industrial or Candidate Center (scores 2 point)	
2. Regional or Candidate Growth Center Manufacturing/Industrial or Candidate Center (scores 2 points)		5. Corridor Supporting one (1) or more Centers (scores 1 point)	X
3. Countywide Center or Locally Identified Center (see approved PCRC Map) (scores 1 point)		6. Corridor Supporting two (2) or more Centers (scores 1 point)	

Local city and town centers provide local job, service, cultural, and housing areas for their communities. They serve as focal points where people come together for a variety of activities, including shopping and recreation. These central places must be identified in local comprehensive plans, or should be advancing towards that goal. These areas are to become priority areas for future investments and growth at the local level.

List and describe centers and attach map.

Milton East Activity Node \*map attached\*

(Max. score of 8)

19. **Is the project on a transit route? (Transit routes that “intersect” are okay only when the project improves the intersection)**

Guidance: Sound Transit route information is available at <http://www.soundtransit.org/Schedules>  
Pierce Transit route information is available at <http://www.piercetransit.org/pierce-transit-routes/>

Yes, full project length     X     2 points  
 Yes, partial or intersection        1 point  
 No        0 points  
 If yes, provide route number(s)     501 and 504    

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 2)

20. **What is the peak number of transit vehicles per hour within the project limits? (Transit routes that “intersect” are okay only when the project improves the intersection)**

Guidance: Sound Transit route information is available at <http://www.soundtransit.org/Schedules>  
Pierce Transit route information is available at <http://www.piercetransit.org/pierce-transit-routes/>

Peak number of transit vehicles per hour     2    

4 or more transit vehicles        2 points  
 1 to 3 transit vehicles     X     1 point

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 2)

21. Does this project specifically improve non-motorized access for trips to any of the following (check all that apply). Provide a map showing all checked items.

Transit locations (0-2 trips/day)	X	Schools	X	Household/Retail	X	Commercial Areas	X
Transit locations (0-5 trips/day)	X	Grocery Store	X	Parks and Recreation	X	Cultural Facilities (museums, libraries, etc.)	X
Transit locations (0-5+ trips/day)	X	Medical	X	Employment Centers	X	*Other	X

1 point each item

\*Please describe:

Banks, Restaurants, Library, Household/Retail, and Medical facilities all lie within the commercial area. See attached "Project Information Map".

This project completes a gap in the non-motorized system, allowing unrestricted pedestrian access from the core of Milton's residential area to Milton's commercial center at the east end of Milton Way.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 12)

22. Does this project provide contiguous gap-closure to a previously funded transportation route?

(Gap closure projects may improve the facility to a standard equal to those sections on either end of the project. Gap closure project may provide a missing link of a facility that leads to a single connected facility. Gap closure projects are not limited to roadway sections and may include pedestrian paths, bicycle paths, trails, bridges, or any other transportation project which completes the system.)

Yes, Final Section                      X   3 points  
Yes, Next Section                    \_\_\_\_\_ 2 point  
No    \_\_\_\_\_ 0 points

If yes, please name adjacent segments; provide their funding source, and completion date: 1) 23<sup>rd</sup> Avenue to 28<sup>th</sup> Avenue, completed 2010, Transportation Improvement Board funds; 2) north side of Milton Way from Juniper Street east 400', completed 2009, developer funded; 3) south side of Milton Way from Juniper to 23<sup>rd</sup> Avenue, completed 2002, Transportation Improvement Board funds.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 3)

23. Describe how the project has the potential to reduce emissions?

**Guidance:** The application process will walk project sponsors through specific questions designed to determine the potential emissions reductions of their project. For example, projects involving fuel or vehicle conversions will be asked to provide information on the total number of vehicles affected, the current fuel and vehicle usage conditions, as well as the conditions after the project is implemented. Projects expected to result

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**  
**Agency: City of Milton**

in an increase in transit usage will be asked to provide information on the current transit ridership and transit routes affected, as well as the specifics of the project – i.e., how will the individual project encourage or promote new transit riders. Projects providing new or more frequent/expanded transit service would be expected to result in a higher level of new transit riders than projects providing improvements in existing transit travel times or enhanced amenities to existing service. Projects resulting in improvements in traffic flow will be asked to provide information on the current travel conditions, amount of idling, number of trucks using the route, etc. As mentioned above, the magnitude of the project and the timing of the anticipated benefits will play a role in the final score, and all projects will be evaluated against each other.

Please explain:

There are three components of “reduced emissions” that may be realized with this project, 1) increased pedestrian use 2) increased transit ridership and 3) increased use as walking route for school children:

1) Improvements in pedestrian use will be realized because this proposed improvement will provide a designated safe pedestrian connection between Milton’s large residential area along the corridor to the large commercial center to the east.

2) Closing the gap in pedestrian facilities along the north side of Milton Way will allow Pierce Transit riders to more easily access the designated bus stops, encouraging increased use.

3) Providing uninterrupted pedestrian facilities along the north side of Milton Way, immediately across from the campus with 3 schools, will encourage parental perception of this area as a “safe route to schools” and increase use by school-aged children.

**High:** A project will rate high if:

- It will substantially reduce emissions of greenhouse gases and other air pollutants, or will substantially reduce fine particulates from diesel exhaust; and
- The air quality benefits will occur by 2020.

**Medium:** A project will rate medium if:

- It will moderately reduce emissions of greenhouse gases and other air pollutants, or will moderately reduce fine particulates from diesel exhaust (for example, a project that reduces VMT by shortening a vehicle trip, rather than eliminating a vehicle trip); and
- The air quality benefits will occur by 2025.

**Low:** A project will rate low if:

- It results in a low amount of emissions reductions; and
- The air quality benefits will occur after 2025.

High = \_\_\_\_\_ 5 points  
Medium =   X   3 points  
Low = \_\_\_\_\_ 2 points

<p>placement of an additional stage of construction. There may be some upgrading of unsafe features or other incidental work in conjunction with restoration and rehabilitation. Typical improvements would include replacing spalled or malfunctioning joints; substantial pavement stabilization prior to resurfacing; grinding/grooving of rigid pavements; replacing deteriorated materials; reworking or strengthening bases or subbases, and adding underdrains.</p>	<p>upgrading of unsafe features and other incidental work in conjunction with resurfacing. Where surfacing is constructed by separate project as a final stage of construction, the type of improvement should be the same as that preceding stage—new route, relocation, reconstruction, minor widening, etc.</p>
--	--

39. **Pavement Preservation Surface Area:** \_\_\_\_\_ / \_\_\_\_\_ (lane miles / SY)

40. **Distressed Pavement (SY / percentage of total roadway surface (matching question 12))**

\_\_\_\_\_ / \_\_\_\_\_ %

(If over 30%, then this project is not eligible)

Distressed Pavement Definition:

**HMA Pavement:** Normally repaired by dig-out (i.e., removal of structurally failed pavement and underlying base. Replacement with full-depth HMA or base material and HMA after compaction and verification of subgrade support. Typical distressed pavement includes: potholes; severe alligator cracking; and/or severe settlement.

**PCC Pavement:** Concrete panels with 3 or more cracks.

41. **Design and construction costs for mandated improvements (e.g. ADA upgrades and safety retrofits) (attach engineer’s estimate).** \_\_\_\_\_

42. **Surface treatment proposed:** \_\_\_\_\_ (e.g., Chip Seal, HMA 2", HMA 3" or more, concrete panel replacement, dowel bar retrofit, concrete milling, concrete leveling)

Concrete or HMA treatment \_\_\_\_\_ 5 points

Chip Seal \_\_\_\_\_ 2 points

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 5)

43. **Project Roadway Pavement Condition Index (PCI)** \_\_\_\_\_

**Year of Project Roadway (PCI) (must be no older than 2010)** \_\_\_\_\_

**Basis of PCI (provide Pavement Management System print-out, rating sheet, or similar)**

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

75 to 80 \_\_\_\_\_ 3 points

65 to 74 \_\_\_\_\_ 9 points

55 to 64 \_\_\_\_\_ 5 points

**COMMITTEE SCORE** \_\_\_\_\_

(Max. score of 9)

PICK AND SCORE ONE ONLY (44 or 44A)

44. Percent of heavy trucks (3 axles min) 0 %  
Basis for determining truck percentage (a description is required to score points)  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- Over 10% \_\_\_\_\_ 7 points
- 5 to 9% \_\_\_\_\_ 5 points
- 2 to 4% \_\_\_\_\_ 3 points

OR

44A. Truck Route Classification (see link <http://www.wsdot.wa.gov/Freight/I/GTS/CountyMaps.htm>)

- T-1: more than 10 million tons per year \_\_\_\_\_ 7 points
  - T-2: 4 million to 10 million tons per year \_\_\_\_\_ 5 points
  - T-3: 300,000 to 4 million tons per year \_\_\_\_\_ 5 points
  - T-4: 100,000 to 300,000 tons per year \_\_\_\_\_ 3 points
  - T-5: at least 20,000 tons in 60 days \_\_\_\_\_ 2 points
  - Locally designated truck route \_\_\_\_\_ 2 points
- (Must be in Code or Comprehensive Plan and attached)

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 7)

45. Jurisdiction has a pavement management system.

Yes \_\_\_\_\_ 3 points

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 3)

46. Jurisdiction Overall PCI for Federal Functionally Classified Roadways \_\_\_\_\_

Year of overall functionally classified PCI \_\_\_\_\_ (must have been completed in the last 6 years)

- Overall PCI 70 or above \_\_\_\_\_ 7 points
- 65-69 \_\_\_\_\_ 6 points
- 60-64 \_\_\_\_\_ 4 points
- 51-59 \_\_\_\_\_ 2 points

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 7)

46A. Overall PCI conducted for Federal functionality classified roadways within last 3 years.

Yes \_\_\_\_\_ 2 points

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 2)

47. Federal Functional Classification: Principal Minor Collector

- Principal \_\_\_\_\_ 4 points
- Minor \_\_\_\_\_ 3 points
- Collector \_\_\_\_\_ 2 points

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 4)

48. Is the project on a transit route? (Transit routes that “intersect” are okay only when the project improves the intersection)

Guidance: Sound Transit route information is available at <http://www.soundtransit.org/Schedules>  
Pierce Transit route information is available at <http://www.piercetransit.org/pierce-transit-routes/>

- Yes, full project length \_\_\_\_\_ 3 points
  - Yes, partial or intersection \_\_\_\_\_ 2 point
  - No \_\_\_\_\_ 0 points
- If yes, provide route number(s) \_\_\_\_\_

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 3)

**NON-MOTORIZED APPLICATION**

49. Are the environmental/water quality improvements greater than the minimum requirements?  
Please describe.

\_\_\_\_\_  
\_\_\_\_\_  
Stormwater improvements will be constructed to meet the 2005 Department of Ecology Stormwater Manual for Western Washington.  
\_\_\_\_\_  
\_\_\_\_\_

Projects that incorporate Green Stormwater Infrastructure (rain gardens, bioretention, porous pavements, etc.) AND retain 100% of stormwater on site. \_\_\_\_\_ 3 points

Projects that add more than 5,000 square feet of new impervious surface and provide water quality/quantity treatment for ALL (new and existing) impervious surfaces within the project area. \_\_\_\_\_ 2 points

Projects that add less than 5,000 square feet of new impervious surface and that provide water quality and quantity treatment OR provides water quality treatment for 150% of new impervious surfaces. \_\_\_\_\_ X 1 point

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 3)

**50. Does this non-motorized project include a vertical grade separation or removes modal conflict at grade?**

- Yes, vertical grade separation   X   5 points
- Yes, removes modal conflicts at grade   X   3 points
- No        0 points

Please explain:

Curbing and landscaping strips provide vertical grade separation between vehicles and pedestrians. Widening of the roadway to provide a bike way will better accommodate shared use of the roadway between bicycles and vehicles.

**COMMITTEE SCORE**         
 (Max. score of 5)

**51. Does this project provide facilities for pedestrians and bicycles? (Check all that apply.)**

- Provision of facilities for pedestrians   X   2 points
- Provision of facilities for bicycles   X   2 points
- Provision of facilities for bicycles and Pedestrians   X   1 points

**COMMITTEE SCORE**         
 (Max. score of 5)

**52. Does the project include other non-motorized transportation system components?**

Guidance: The description of the “other” selection will be scored within a range of 0 to 3 points.

- Pedestrian Amenities (benches, trash cans)        2 points
- Bicycle Amenities (bike racks, signage)        3 points
- Crosswalk Signalization/Flashing Beacon        4 points
- Lighting   X   3 points
- Transit Connection   X   3 points
- Other        0-3 points

Describe:

Transit users will be able to continue west on the north side of Milton Way from the bus stop within the project limits instead of having to walk east to 23<sup>rd</sup> Avenue and cross to the south side of Milton Way. Additionally, an existing transit stop between 18<sup>th</sup> Avenue and 19<sup>th</sup> Avenue will be improved (it currently consists of a widened shoulder).

Decorative lighting at the east end of the project corridor will be extended west to the extent that ROW limitations will allow.

**COMMITTEE SCORE**         
 (Max. score of 18)

53. In the last five years, have there been any pedestrian or bicycle accidents that could have been prevented with this project?

- Yes \_\_\_\_\_ 5 points
- No   X   0 points

Providing supporting data (accident data, police reports etc.) is a requirement of earning points.  
Please identify the accident history:  
Currently, most people avoid walking/bicycling in this area, even with the proximity to the school, because of how dangerous it is/feels.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 5)

54. Does this project add a new illumination system?

- Yes, full project corridor length \_\_\_\_\_ 4 points
- Yes, partial project corridor length   X   3 points
- Yes, at an intersection only \_\_\_\_\_ 2 points
- No \_\_\_\_\_ 0 points

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 4)

**OTHER APPLICATIONS**

55. Please explain how the project addresses transportation issues or needs of two or more jurisdiction/agencies and/or has countywide impact and benefit.

Guidance: Projects resulting in physical construction must be built in multiple jurisdictions to acquire multiple points.

Please explain:  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- 4 or more agencies affected \_\_\_\_\_ 8 Points
- 2 or 3 agencies affected \_\_\_\_\_ 5 Points

**COMMITTEE SCORE** \_\_\_\_\_

---

---

---

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 7)

66. Does the project improve transit users safety, security, or access to essential services?  
(Check all that apply)

Guidance: Essential services may include hospitals or other emergency services.

If yes, explain: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- Yes, security improvements      \_\_\_ 2 points
- Yes, safety improvements      \_\_\_ 2 points
- Yes, access to essential services      \_\_\_ 2 points
- No      \_\_\_ 0 points

COMMITTEE SCORE \_\_\_\_\_  
(Max. score of 6)

67. Describe how the project maintains or improves safe and convenient access to, and/or, within the regional or local center.

Guidance: Applicants should demonstrate the magnitude of the benefits provided by the project and describe how it might improve system continuity and access to centers.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- High:** A high scoring project would demonstrate the following characteristics:
- Provides clear benefit to a center or centers by expanding the person and goods carrying capacity of routes leading towards the center(s).
  - Demonstrates that it helps a center(s) meet its development goals (and can reference these goals).
  - Improves access to the center(s) for multiple modes, including nonmotorized and transit.

- Medium:** A medium scoring project would demonstrate the following characteristics:
- Primarily benefits the development along the corridor rather than a center.
  - Benefits to a center’s development goals are not described in a comprehensive plan.
  - Improves access to a center, but only for a few modes.

- Low:** A low scoring project would demonstrate the following characteristics:
- Has very limited benefits to a center, with the benefits not described in a comprehensive plan.
  - Limited access improvements for only one mode.

COMMITTEE SCORE \_\_\_\_\_

(Max. score of 4)

68. Describe the user groups that will benefit from the project, including commuters, residents, commercial users, and those groups identified in the President’s Order for Environmental Justice and/or areas experiencing high levels of unemployment or chronic underemployment.

Guidance: Applicants should demonstrate the magnitude of the benefits provided by the project and describe how it might improve system continuity and access to centers.

---

---

---

---

---

---

---

**High:** A high scoring project would demonstrate the following characteristics:

- Serves multiple user groups, including those without full-time access to cars, those identified in the President’s Order for Environmental Justice, and/or areas experiencing high levels of unemployment or chronic underemployment.
- Adjacent to dense, mixed-use areas that are likely to generate significant use of the project.

**Medium:** A medium scoring project would demonstrate the following characteristics:

- Serves a moderate number and variety of users.
- Adjacent land uses are low-density, and therefore, likely to generate limited use.

**Low:** A low scoring project would demonstrate the following characteristics:

- Serves a limited number and variety of users.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 4)

69. Describe how the project improves intermodal connections (e.g., between autos, ferries, commuter rail, high capacity transit, buses, carpools, bicycles, etc.) or facilitates connections between separate operators of a single mode (e.g., two transit operators).

Guidance: Applicants should demonstrate the magnitude of the benefits provided by the project and describe how it might improve system continuity and access to centers.

---

---

---

---

---

---

---

**High:** A high scoring project would demonstrate the following characteristics:

- Improves a corridor in logical segments, preventing the creation of missing links or gaps, thereby improving access to a center or centers.
- Creates a new intermodal connection that provides significant system-wide performance benefits.
- Address critical gaps or barriers in the development of a corridor, creating greater efficiency or reliability in accessing a center.
- Removes a bottleneck that improves the overall system performance and creates improved access to a center.
- Provides a long-term solution for meeting projected travel demand for people and/or goods to a center, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Medium:** A medium scoring project would demonstrate the following characteristics:

**Project Title: Milton Way Pedestrian Improvements – Juniper to 23<sup>rd</sup> Avenue**

**Agency: City of Milton**

- Improves a corridor in logical segments, but provides limited improvement in accessing a center.
- Creates a new intermodal connection that provides moderate system-wide performance benefits.
- Addresses important, but not critical, gaps or barriers in the development of a corridor and has limited improvements in efficiency or reliability in accessing a center.
- Provides limited relief to a bottleneck with limited improvement to overall system performance.
- Provides a short-term solution for meeting projected travel demand for people and/or goods, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Low:** A low scoring project would demonstrate the following characteristics:

- Does not improve a corridor in logical segments and does not provide for improved access to a center.
- Does not create new intermodal connections.
- Addresses marginal gaps or barriers in the development of a corridor and has very limited improvements in efficiency or reliability in accessing a center.
- Has no perceptible improvement to a bottleneck or to overall system performance.
- Does not address long-term projected travel demand.
- Serves areas outside the Urban Growth Area.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 4)

**70. If applicable, describe how the project provides an improvement in travel time and/or reliability for transit users traveling to and/or within centers.**

---

---

---

---

---

---

---

---

**High:** A high scoring project would demonstrate the following characteristics:

- Improves a corridor in logical segments, preventing the creation of missing links or gaps, thereby improving access to a center or centers.
- Creates a new intermodal connection that provides significant system-wide performance benefits.
- Address critical gaps or barriers in the development of a corridor, creating greater efficiency or reliability in accessing a center.
- Removes a bottleneck that improves the overall system performance and creates improved access to a center.
- Provides a long-term solution for meeting projected travel demand for people and/or goods to a center, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Medium:** A medium scoring project would demonstrate the following characteristics:

- Improves a corridor in logical segments, but provides limited improvement in accessing a center.
- Creates a new intermodal connection that provides moderate system-wide performance benefits.
- Addresses important, but not critical, gaps or barriers in the development of a corridor and has limited improvements in efficiency or reliability in accessing a center.
- Provides limited relief to a bottleneck with limited improvement to overall system performance.
- Provides a short-term solution for meeting projected travel demand for people and/or goods, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Low:** A low scoring project would demonstrate the following characteristics:

- Does not improve a corridor in logical segments and does not provide for improved access to a center.
- Does not create new intermodal connections.

- Addresses marginal gaps or barriers in the development of a corridor and has very limited improvements in efficiency or reliability in accessing a center.
- Has no perceptible improvement to a bottleneck or to overall system performance.
- Does not address long-term projected travel demand.
- Serves areas outside the Urban Growth Area.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 4)

**71. How does the project maximize the efficiency of the corridor? Describe the problem and how this project will remedy it.**

Guidance: Applicants should demonstrate the magnitude of the benefits provided by the project and describe how it might improve system continuity and access to centers.

---

---

---

---

---

---

**High:** A high scoring project would demonstrate the following characteristics:

- Improves a corridor in logical segments, preventing the creation of missing links or gaps, thereby improving access to a center or centers.
- Creates a new intermodal connection that provides significant system-wide performance benefits.
- Address critical gaps or barriers in the development of a corridor, creating greater efficiency or reliability in accessing a center.
- Removes a bottleneck that improves the overall system performance and creates improved access to a center.
- Provides a long-term solution for meeting projected travel demand for people and/or goods to a center, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Medium:** A medium scoring project would demonstrate the following characteristics:

- Improves a corridor in logical segments, but provides limited improvement in accessing a center.
- Creates a new intermodal connection that provides moderate system-wide performance benefits.
- Addresses important, but not critical, gaps or barriers in the development of a corridor and has limited improvements in efficiency or reliability in accessing a center.
- Provides limited relief to a bottleneck with limited improvement to overall system performance.
- Provides a short-term solution for meeting projected travel demand for people and/or goods, considering environmental issues, land-use strategies, transportation efficiency, and health impacts.

**Low:** A low scoring project would demonstrate the following characteristics:

- Does not improve a corridor in logical segments and does not provide for improved access to a center.
- Does not create new intermodal connections.
- Addresses marginal gaps or barriers in the development of a corridor and has very limited improvements in efficiency or reliability in accessing a center.
- Has no perceptible improvement to a bottleneck or to overall system performance.
- Does not address long-term projected travel demand.
- Serves areas outside the Urban Growth Area.

**COMMITTEE SCORE** \_\_\_\_\_  
(Max. score of 4)

**72. Will this project extend the useful life of an asset or will it replace an asset that is beyond the useful life?**

\_\_\_ The entire project will extend the useful life of an asset or replace an asset beyond its useful life. (3 points)

\_\_\_ Part of the project will extend the useful life of an asset or replace an asset beyond its useful life. (2 points)

\_\_\_ No, this project will not extend the useful life of an asset or replace an asset beyond its useful life. (0 points)

**73. Are the environmental/water quality improvements greater than the minimum requirements?  
Please describe:**

---

---

---

---

---

Projects that incorporate Green Stormwater Infrastructure (rain gardens, bioretention, porous pavements, etc.) AND retain 100% of stormwater on site. \_\_\_\_\_ 3 points

Projects that add more than 5,000 square feet of new impervious surface and provide water quality/quantity treatment for ALL (new and existing) impervious surfaces within the project area. \_\_\_\_\_ 2 points

Projects that add less than 5,000 square feet of new impervious surface and that provide water quality and quantity treatment OR provides water quality treatment for 150% of new impervious surfaces. . \_\_\_\_\_ 1 point

**COMMITTEE SCORE \_\_\_\_\_**  
(Max. score of 3)

**74. Will this project improve the efficiency and accessibility of trucks to deliver rural economy products such as, mineral extractions, forest products, food or other agricultural products to the urban centers?**

Yes \_\_\_\_\_ 6 points  
No \_\_\_\_\_ 0 points

Please explain: \_\_\_\_\_

---

---

---

---

---

**High:** A high scoring project would demonstrate the following characteristics:

- Demonstrate the project will improve transportation for more than one rural product group.
- The project consists of upgrades that provide greater sustainability for the rural freight system.

**Medium:** A medium scoring project would demonstrate the following characteristics:

- Demonstrate the project will improve transportation for one rural product group.
- The project consists of upgrades that do not mitigate the impacts of truck traffic.

**Low:** A low scoring project would demonstrate the following characteristics:

- The project does not improve transportation for any of the rural product group.
- The project does not include rehabilitation nor reconstruction elements.

**COMMITTEE SCORE \_\_\_\_\_**
