Seismic Hazard Area

Areas subject to severe risk of damage as a result of earthquake induced ground shaking, slope failure, settlement, soil liquefaction, lateral spreading, or surface faulting. (FMC 17.13.010)

Legend

City Boundary - Fife

Annexation Boundary - Fife

Liquefaction Susceptibility

- High
- Moderate to high
- Low to moderate
- Very low
- Peat
- Water

Note: The approximate location and extent of known critical areas in the city are shown on these maps. Other critical areas not shown on these maps are presumed to exist in the city and are also protected under all the provisions of the City's Critical Areas Regulations (FMC Title 17). These maps are to be used as a guide and a reference for the city, project applicants, and/or property owners, and do not provide a final critical area designation. The exact location of a critical area’s boundary shall be determined through the performance of a field investigation by a qualified professional. In the event that any of the critical area designations shown on the maps conflict with the criteria set forth in FMC Title 17, the criteria shall control.
